Frontend-oriented Full-Stack Developer with 7+ years of experience building and delivering complex web applications using React, TypeScript, and Node.js. Strong expertise in designing scalable frontend architectures, building reusable component libraries, and optimizing application performance, with solid experience developing backend services, APIs, integrations, and data-driven features. Proven ability to lead major features end to end, mentor junior developers, and collaborate effectively with product, design, and engineering teams. Experienced in integrating third-party SDKs, improving developer experience, and delivering reliable, maintainable solutions across the full application stack.

Work Experience

Senior Frontend Developer

2025 – Present

GO7 • Tel-Aviv, Israel

- Spearhead full lifecycle delivery of complex frontend features using React and TypeScript.
- Architect scalable UI and construct reusable component libraries.
- Integrate internal SDKs, enhancing developer experience and system consistency.
- Collaborate with design, backend, and product teams to align business objectives with technical execution.

Frontend Developer

2022 – 2025

Klips Official • Tel-Aviv, Israel

- Develop core product features end-to-end, from requirements clarification to production release.
- Partner daily with Product to refine requirements and deliver intuitive, high-quality UI/UX.
- Optimize frontend performance and refactor legacy components to improve maintainability.
- Participate in architectural discussions and propose advancements to development workflows.
- Ensure code quality through comprehensive reviews, documentation, and adherence to best practices.

Frontend Developer

2020 – 2022

cthings.co • , Remote

- Engineered frontend modules utilizing React, TypeScript, Redux Toolkit, and Styled Components.
- Led frontend development for key features, encompassing architecture setup and integration.
- Conducted code reviews, managed task breakdown, and synchronized efforts across the team.
- Mentored two junior developers, fostering their technical growth and enhancing their work quality.
- Collaborated with designers and backend engineers to construct consistent and reliable product experiences.
